1. IMPORTANT SAFETY INSTRUCTIONS

When using your telephone equipment, basic safety precautions should always be followed to reduce the risk of fire, electric shock and injury, including the followings:

- 1) Read and understand all the instructions.
- 2) Follow all warnings and instructions marked on the product.
- 3) Unplug this product from the wall outlet before cleaning.
Do not use liquid cleaners or aerosol cleaners. Use a damp cloth for cleaning.
- 4) **To avoid hearing damage, please make sure anyone who uses this product is aware that the product can produce loud sound when Audio boost function is on.**
- 5) Do not use this product near water (for example, near a bath tub, kitchen sink, swimming pool).
- 6) Do not expose the telephone to direct sunlight or extreme cold environment. Do not put the telephone close to a heating source such as radiators, cookers, etc.
- 7) Do not overload wall outlets and extension cords as this can result in the risk of fire or electric shock.
- 8) NEVER use your phone outdoors during a thunderstorm-unplug the base from the telephone line and the mains socket when there are storms in your area.
- 9) Do not use the telephone to report a gas leak in the vicinity of the leak.
- 10) **Use only the supplied NiMH (Nickel Metal Hydride) batteries!**
The operation periods for the handsets are only applicable with the default battery capacities.
- 11) **The use of other battery types or non-rechargeable batteries/ primary cells can be dangerous.** These may cause interference and/or unit damages. The manufacturer will not be held liable for damage arising from such noncompliance.
- 12) Do not use third party chargers. The batteries may be damaged.

- 13) Dispose of batteries safely. Do not immerse them in water, burn them, or put them where they could get punctured.

2. POWER FAIL BACK-UP

Lets you make calls during a mains power interruption with your phone.

During a mains power interruption, you can make use of **your combo base** only to make and receive your calls. Except basic calling functions, other functions (e.g. answering machine,..etc.) will not be working

Make a call

- Pick up combo handset, enter the telephone number or 1 of photo keys (number stored) to dial.

Answer a call

1. When the phone rings, pick up combo handset or press  on base.
2. To end the call, press .

Notes during power fail condition:

- The ringing sound from the base will be less loud as normal condition.
- Cordless handset is not working.

3. LOCATION

For maximum coverage and reduce the interference, here are some guidelines you should consider when you place the base unit,

- place it at a convenient, high, and central location with no obstructions between the handset and base unit in an indoor environment.
- place it away from electronic appliances such as televisions, microwave ovens, radios, personal computers, wireless devices or other cordless phones.
- avoid facing radio frequency transmitters, such as external antennas of mobile phone cell stations.
- avoid plugging it into the same circuit as other major household electrical appliances because of the potential for interference. Try moving the appliance or the base unit to another power outlet.

If the reception for a base unit location is not satisfactory, move it to another location for better reception.

Depending on the surrounding conditions as well as spatial and structural factors, the range may be reduced. The range indoors is normally less than outdoors

4. INSTALLING YOUR PHONE

4.1. Installing and Charging the Batteries

- 1) Slide down to open the battery compartment cover.
- 2) Place the 3 supplied AAA-size NiMH rechargeable batteries as indicated. Pay extra attention to direction of polarity.

- 3) Slide the battery compartment cover back.
- 4) Put the handset on the base and charge for 15 hours before using the handset for the first time.

Notes:

- 1) Use only the supplied NiMH rechargeable batteries.
- 2) If the handset will not be used for a long time, disconnect and remove the batteries to prevent possible leakage.

4.2. Connecting the Base Station

- 1) Plug one end of the telephone line cord into the telephone jack on base bottom.
- 2) Plug the small end of power adapter into a power jack on base bottom.
- 3) Plug the large end of power adapter into a wall power outlet.
- 4) Plug the other end of the telephone line cord in to the telephone jack or micro-filter.
- 5) Always use the cables provided in the box.

4.3. Connecting the Charger

Plug the power adapter into a mains socket.

If you have a Broadband line

If you connect your telephone to a line with a broadband connection, you will need to insert a micro-filter between the telephone and the telephone line, otherwise you may get interference between the telephone and the broadband, which could cause problems.

In a fixed with broadband, every telephone must have a micro-filter connected, not just the one at the telephone point that your modem is connected to. If you need more broadband micro-filters, contact your broadband supplier.

5. GETTING TO KNOW YOUR PHONE

5.1. Handset Overview

1 INCOMING CALL LIGHT

- Flashes when there is an incoming call/ the base is paging the handset.

2 CHARGE LIGHT

- On when the handset is charging in the charger or base.

7. USING YOUR PHONE

7.1 Set Date & Time and Language

7.1.1 Set Date & Time

1. Press **OK** on the handset in idle mode.
2. Press **▲** or **▼** to select **HS SETTING**, then press **OK**.
3. Press **▲** or **▼** to select **DATE&TIME**, then press **OK**.
4. Press **▲** or **▼** to select **SET DATE**, then press **OK**, Input the day, month, year, then press **OK**, input hour (24HR format), and minutes, then press **OK**, You hear confirmation tones.

Note: if digit is input wrong during input Date or Time, you can press **▲** or **▼** to select the right position and input correct digit.

7.1.2 Change language

1. Press **OK** on the handset in idle mode.
2. Press **▲** or **▼** to select **HS SETTING**⁽¹⁾, then press **OK**.

(1)

EN	FR	DE	IT	NL	ES	PT
HS SETTING	REGL. COMB	MT-EINSTEL	IMP PORTAT	HS INST.	CONF SUPL	CONF TERM

3. Press **▲** or **▼** to select **LANGUAGE**⁽²⁾, then press **OK**.

(2)

EN	FR	DE	IT	NL	ES	PT
LANGUAGE	LANGUE	SPRACHE	LINGUA	TAAL	IDIOMA	IDIOMA

4. Select the desired language and press **OK**. You hear confirmation tones.

Note: When language is changed, texts of LCD screen, talking digit, and default outgoing message of answering machine will be changed accordingly.

7.2 Make, Answer, End a Call

7.2.1 Make a Call

7.2.1.1 Preparatory Dialing

Handset: Enter the phone number and press  to dial the number. Press  to clear the entry.

7.2.1.2. Direct Dialing

Handset: Press  to take the line and enter the phone number.

Base: Take up combo handset and enter the phone number, or press  to take line in speaker mode and enter the phone number.

7.2.1.3. A, B, C, ... or H key Dialing

Press A, B, C, D key on handset or Photo A, B, C ...or H key on base to dial.

Note: Before dialing, programming of A, B, C, ...or H keys is required, refer to Section 7.3.

7.2.1.4. Speed dial key Dialing (Key 1 to Key 9)

Long press Key 1, or,Key 9 on the handset or base to dial.

Note: Before dialing, programming of key 1, ...key 9 is required, refer to Section 10.5 and 11.

7.2.2. Answer a Call

Using Cordless Handset:

If the handset is not on the charging cradle, when the phone rings, press .

Using Telephone Base:

Press  to answer a call.

Take up combo handset

7.2.3. End a Call

During a call connection,

Using Cordless Handset:

Press  OR put the handset on the charging cradle to end a call.

Using Telephone Base:

Press  to end a call.

During earpiece mode, put down the combo handset on cradle.

7.3. Set Photo A, B, C,...or H key memories

This feature is VERY convenient to know who calls you if his/her telephone number is stored and voice is recorded in 1 of 8 photos keys.

You can program telephone number and record your voice through the handset or combo base. For other operations, they are controlled through the handset only. This function requires a subscription to the "Number Presentation" service of your telephone company.

7.3.1. Through handset

7.3.1.1. Input number and name

1. Press **OK** on the handset in idle mode.
2. Press **▲** or **▼** to select **DIRECT MEM**, then press **OK**.
3. Press **▲** or **▼** to select **A, B, C, D...**, then press **OK**.
4. Select **ADD**, then press **OK**, enter the telephone number, then enter his/her name, then press **OK**. You hear confirmation tones.

Note: during entering number or name, you can correct a number or a letter by pressing , then last number or letter will be removed.

7.3.1.2. Record your own voice tag

1. Continue section 7.3.1.1., press **OK**.
2. **VIEW** appears, press **▲** or **▼** to select **VOICE TAG**, then press **OK**.
3. Press **▲** or **▼** to select **RECORD**, then press **OK**.
4. **RECORDING...** will appear, then you can speak (better with louder voice) after beep tone in front of handset microphone area (near key 0).
5. Press **OK** to finish recording.
6. Your recorded voice will be playback automatically.

Note: 15 seconds approx. recording time per memory.

When calling number matched to photo A, B, C, ...or H, ringing sound with recorded voice will be announced from handset and base until you press  on handset or  on base to answer, or take up combo handset from the base .

7.3.1.3. Play Voice tag

1. Press **OK** on the handset in idle mode.
2. Press **▲** or **▼** to select **DIRECT MEM**, then press **OK**.
3. Press **▲** or **▼** to select **A, B, C, D...**, then press **OK**.
4. **VIEW** appears, then press **▲** or **▼** to select **VOICE TAG**, press **OK**,
5. **PLAY** appears, then press **OK**.
6. **PLAYING VOICE TAG...** will appear. The recorded voice will be playback.

7.3.1.4. Delete Voice tag

1. Repeat the step 1 to 4 in Section 7.3.1.3.
2. **PLAY** appears, then press ▲ or ▼ to select **DELETE**, press **OK**.
3. **RESET TO DEFAULT** will display. You hear confirmation tones.

7.3.1.5. View record of Photo memory

1. Press **OK** on the handset in idle mode.
2. Press ▲ or ▼ to select **DIRECT MEM**, then press **OK**.
3. Press ▲ or ▼ to select **A, B, C, D...**, then press **OK**.
4. **VIEW** appears, then press **OK**.
5. Record (name and number) will show.

Press  to return previous menu or long press  to return to standby mode.

7.3.1.6. Edit record of Photo memory

1. Press **OK** on the handset in idle mode.
2. Press ▲ or ▼ to select **DIRECT MEM**, then press **OK**.
3. Press ▲ or ▼ to select **A, B, C, D...**, then press **OK**.
4. **VIEW** appears, then press ▲ or ▼ to select **EDIT**, then press **OK**,
5. Edit number, then press **OK**.
6. Edit name, then press **OK**.

Press  to return previous menu or long press  to return to standby mode.

Note: during entering number or name, you can correct a number or a letter by pressing , then last number or letter will be removed.

2. Press **☐** to delete the message being listened. You hear confirmation tones.

Delete all old messages through the Base:

1. During idle mode, long press **☐** to delete all old messages. You hear confirmation tones.

14.4. Record a Memo

You can record your memo message for another user.

1. Press **OK** in idle mode to enter the main menu.
2. Press **▲** or **▼** to select **ANS. SYS**, then press **OK**.
3. **PLAYBACK** will show, and then press **▲** or **▼** to select **MEMO**, then press **OK**.
4. **RECORDING** shows on the screen. After the tone, speak towards the microphone.
5. Press **OK** when you finish recording. **PLAYING MEMO...** shows on the screen. Your recorded memo will be playback. then returns to the previous menu.
6. When another user listens the memo (procedure refers to Section 14.2 through handset or base), the time & date of the memo will display on the screen if listened through handset.

Notes:

- MEM FULL will display in the screen if you attempt to record a memo when the memory is full.
- Each memo can be up to 4 minutes in length.
- Memos shorter than two second are not recorded.

14.5. Outgoing Message (OGM)

The telephone is preset with a greeting that answers calls with “please leave a message after the tone.” You can use this default outgoing message, or replace it with your own.

14.5.1. Play your outgoing message (OGM)

1. Press **OK** in idle mode.
2. Press **▲** or **▼** to select **ANS. SYS**, then press **OK**.
3. **PLAYBACK** will show, and then press **▲** or **▼** to select **SET TAM**, then press **OK**.
4. **CALLSCREEN** will show, and then press **▲** or **▼** to select **TAM MSG**, then press **OK**.
5. **PLAY** will show on the screen, then press **OK**, **PLAYING ANNC...** will show, then it will play the default outgoing message.

14.5.2. Record your own outgoing message (OGM)

1. Repeat step 1 to 4 in Section 14.5.1.
2. **PLAY** will show on the screen, then press **▼** to select **RECORD**, and then press **OK**.
3. **RECORDING...** will show, and then you can record your outgoing message after beep tone.
4. After finishing record, press **OK**, **PLAYING ANNC...** will show, then it will playback your own outgoing message.

Notes:

- Your outgoing message can be up to 90 seconds in length.
- Outgoing messages shorter than two seconds are not recorded.

14.5.3. Delete your outgoing message

1. Repeat step 1 to 4 in Section 14.5.1
2. **PLAY** will show on the screen, then press **▼** to select **DELETE**, and then press **OK**.
3. **RESET TO DEFAULT** will show, You hear confirmation tones.

14.6. Answering Machine Settings

14.6.1. Set Answer Delay

You can set the number of rings before the answering machine answers and starts playing your OGM. You can set the answering machine to answer after 2 to 10 rings or TOLL SAVE.

With TOLL SAVE selected, the answering machine answers after 2 rings when you have new messages, and after 4 rings when you have no new messages.

1. Press **OK** in idle mode.
2. Press **▲** or **▼** to select **ANS. SYS**, then press **OK**.
3. Press **▲** or **▼** to select **SET TAM**, then press **OK**.
4. Press **▲** or **▼** to select **ANS. DELAY**, then press **OK**.
5. Press **▲** or **▼** to select **2, 4, 6, 8, 10 rings** or **TOLL SAVE**, then press **OK** to save. You hear confirmation tones.

14.6.2. Recording Time

You can set the maximum length of the recording time of the incoming messages.

1. Repeat step 1 to 3 in Section 14.6.1
2. Press **▲** or **▼** to select **REC. TIME**, then press **OK**.
3. Press **▲** or **▼** to select **60s, 120s, 180s** or **UNLIMITED**, then press **OK** to save. You hear confirmation tones.

14.6.3. Call Screening

When the answering machine is set to ON and when there is an incoming message, the base will start call screening if call screening is set to ON after the preset numbers of rings of answer delay, press **OK** to screen the call on your handset too.

At any time if you want to pick up the call, you can press  on the handset, or press  on the telephone base, or pick up combo handset and the message recording will be stopped automatically. If the answering machine is in the process of recording, the message already stored will be saved.

1. Repeat step 1 to 3 in Section 14.6.1
2. **CALLSCREEN** will display, then press **OK**.
3. Press **▲** or **▼** to select between **On** and **Off**, then press **OK** to save. You hear confirmation tones.

Options while a message is being recorded in the telephone base:

- Slide up/down  on the side of base to adjust the speaker volume.
- Press  to temporarily turn off the feature.

Options while a message is being recorded in the cordless handset:

- Press **OK** to temporarily turn on the feature if it is set to off.
- Slide  up or down on side of handset to adjust the speakerphone volume.
- Press  to temporarily turn off the feature.

14.6.4. Activate Remote Access

You can access the answering machine remotely by dialling your fixed telephone number from any touch-tone telephone.

Your phone lets you check your messages, or otherwise operate your answering machine, by calling the answering machine when you are away from home by entering a 2-digit remote access PIN on a tone-dialing phone.

To activate remote access function:

1. Press **OK** in idle mode.
2. Press **▲** or **▼** to select **ANS. SYS**, then press **OK**.
3. Press **▲** or **▼** to select **SET TAM**, then press **OK**.
4. Press **▲** or **▼** to select **REMOTE ACC**, then press **OK**.
5. Press **▲** or **▼** to select **ON** or **OFF**, then press **OK** to save. You hear confirmation tones.

To change the remote code:

1. Repeat step 1 to 3 as above.
2. Press **▲** or **▼** to select **CHANGE PIN**, then press **OK** to enter a 4-digit number.
3. Press **OK** to save. You hear confirmation tones.

To remotely access your answering machine remotely:

You can ring your phone from another tone-dialing phone to switch on or off the answering machine and listen to your messages remotely.

1. Place a call from a tone-dialing phone to your phone.
2. When the answering machine answers the calls and starts playing the outgoing message, enter ***** key and then 2-digit remote access code (00 is the preset code).
3. Then the following description will operate by pressing the following key in your tone-dialing phone.

Key	Description
2	Delete the message currently being played.
4	Repeat the current message or press twice for the previous message.
5	Play all messages.
6	Skip to the next message.
7	Turn on the answering machine.
9	Turn off the answering machine.

Notes:

- After 5 seconds of key inactivity, the answering machine automatically cuts off communication.
- When the answering machine is turned off, the telephone answers after 14 rings, and plays the outgoing message.

14.6.5. Message Alert Tone

When the message alert tone is set to **On**, the telephone base beeps every 10 seconds to alert you to new messages. The tone stops when all new messages have been reviewed.

1. Press **OK** in idle mode.
2. Press **▲** or **▼** to select **ANS. SYS**, then press **OK**.
3. Press **▲** or **▼** to select **SET TAM**, then press **OK**.
4. Press **▲** or **▼** to select **MSG ALERT**, then press **OK**.
5. Press **▲** or **▼** to select **ON** or **OFF**, then press **OK** to confirm. You hear confirmation tones.

Pressing any telephone base key temporarily silences the message alert tone. The message alert tone plays with the next incoming message.

16. TROUBLESHOOTING

If you have difficulty with your phone, please try the suggestions listed below.

As a general rule, if a problem occurs, remove the batteries from all the handsets in your installation for about 1 minute, then disconnect and reconnect the power supply to the base and reinstall the handset batteries.

Phone does not work

- Make sure you installed the batteries correctly.
- Check that the mains power is correctly connected for the charger.

“NO LINE” appears in the screen

- Is the telephone cord plugged into the phone socket?
- Only use the telephone cord supplied with the phone.
- The telephone line cord might be malfunctioning. Install a new telephone line cord.
- Disconnect the telephone and connect a different telephone. If there is no dial tone on this telephone, the problem is in your wiring or local service. Contact your local telephone company.

No dial tone

- Is the telephone cord plugged into the phone socket?
- Check that the mains power is switched on.
- Only use the telephone cord supplied with the phone.
- The telephone line cord might be malfunctioning. Install a new telephone line cord.
- Move the cordless handset closer to the telephone base. It might be out of range.
- Disconnect the telephone and connect a different telephone. If there is no dial tone on this telephone, the problem is in your wiring or local service. Contact your local telephone company.

Cannot dial out or receive calls

- Check that the mains power is correctly connected.
- The battery may need recharging.
- Has there been a power cut? If so, place the handset back on the base for 10 seconds and try again. If it still does not work disconnect the batteries and mains power for 10 minutes, then reconnect and try again.
- If you are connected to a PABX, check whether you need to dial an access code.

Your own voice cannot be announced when the telephone number of incoming call is same as 1 of 8 photo memories stored

- The ringer volume may be switched off.
- Voice recording in 1 of 8 photo memories was not done successfully. Please refer to Section 7.3 to record again.
- Your telephone line may not be subscribed or availability of the service from the fixed line operator.

Cordless handset does not ring

- The ringer volume may be switched off.
- Check that the mains power is correctly connected.
- Make sure the cordless handset is registered to the base.

No display in cordless handset

- The batteries may be flat, dead or incorrectly inserted.
- Recharge or replace the batteries

Handset displays “OUT RANGE”

- Check that the cordless handset is within range of the base.

No voice tag announcement from cordless handset during ringing

- It should become normal after 1 minute in idle mode without any operation of the phone.

You hear the busy tone when you press  key on handset

- Make sure the cordless handset is in range of the base.
- Another cordless handset registered to your telephone base may be on the line.

Buzzing noise on my phone or on other electrical equipment nearby

- Sometimes your phone can interfere with other electrical equipment if it is placed too close. It is recommended that you place your phone at least one metre away from electrical appliances or metal obstructions to avoid any risk of interference.
- If you have an ADSL internet service ensure correct filters are installed to prevent interference.

Answering machine does not record any messages

- Make sure the answering machine is switched on.
- The memory may be full, please delete some old messages to free up space.

Cannot access your messages from another phone

- Have you changed the remote access security PIN code?
- Make sure you are calling from a touch-tone telephone. When dialling a number, there should be tones.
- The answering machine might not detect the remote access code when your outgoing message is playing. Try again to press remote access code quickly.
- There might be interference on the telephone line you are using. Press the dial pad keys firmly when dialing.

Voicemail and  show on the display and I don't know why.

Your telephone has voicemail indication that is separate from the built-in answering system. If  appears on the display, then your telephone has received a signal from your telephone service provider that you have a voicemail message waiting for you to retrieve from your telephone service provider. Contact your telephone service provider for more information on how to access your voicemail.

The store where you bought your telephone can also provide you with information and after-sales support.

17. GUARANTEE

Please read carefully the user guide included in this box. Xtra 3155 is an approved equipment in accordance with the European regulations, attested by the CE marking. The product you just bought is a technological product, it must be handled with care.

Note: You have a legal warranty on this product in accordance with the regulations applicable to the sale of consumer goods in the country in which you made this purchase.

For any information regarding this legal warranty, please contact your dealer. Without prejudice to the legal guarantee of the products, ATLINKS guarantees that the product in this box conforms to its technical specifications contained in the user guide included in the this box, and this during a warranty period, counted from the date of purchase of the new product, the date on your invoice or ticket checkout where is indicated the name of your reseller, and equal to: Twenty four (24) months for the telephone, excluding consumables, accessories and batteries. For any claim under this warranty during the warranty period, you must return the entire Product to your dealer, together with the proof of purchase, the invoice or receipt issued by your dealer, indicating the place of purchase and the serial number of the Product, following the appearance or discovery of the defect. ATLINKS undertakes to repair any defective item due to a defect in design, material or workmanship, at its expense, or to replace, at its expense, by an identical or at least equivalent element in terms of functionalities and performance. If the repair or replacement is impossible under normal commercial conditions, the Product will be refunded or replaced by a Product equivalent. Within the maximum limit allowed by the applicable law, the product or element replacement, which may be new or reconditioned, is warranted during a period of ninety (90) days from the date of repair or until the end date of the initial warranty period, whichever is the earlier greater than ninety (90) days, it being specified that any period of immobilization of the Product of at least seven (7) days will be added to the warranty period remaining to run. This warranty does not apply in the following cases:

- Installation or use not in accordance with the instructions in the guide of the user,

- Incorrect connection or abnormal use of the Product, especially with noncompatible accessories, as indicated in the user guide,
- Product opened, modified or replaced by means of non-approved parts, serial number deleted, illegible, damaged,
- Normal wear, including normal wear and tear on accessories, batteries and displays,
- Failure to comply with the technical and safety standards in force in the area geographical use,
- Product having suffered a shock or a fall,
- Product damaged by lightning, electrical surge, heat source or radiation, water damage, exposure to conditions of temperature, humidity or other excessive ambient conditions or any other cause external to the product,
- Negligence or faulty maintenance,
- An intervention, a modification or a repair carried out by a not authorized by ATLINKS.

If the returned Product is not covered by the warranty, you will receive a quote from repair that will mention the cost of analysis and transportation costs that you will be charged if you want the Product returned to you. This guarantee is valid in the country in which you regularly purchased the Product, provided that the country is a member of the European Union. Subject to the legal provisions in force, all warranties other than described herein are expressly excluded.

TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW,

- A) THIS WARRANTY IS EXCLUSIVE TO ALL OTHER WARRANTIES EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE PARTICULAR;
- B) ATLINKS DISCLAIMS LIABILITY FOR LOSS OR DETERIORATION OF DATA, LOSS OF USE LOST TO WIN, LOSS OF CHANCE, DEREVENUES OR INCOME, LOSS OF OPERATION, DAMAGES INDIRECT, CONSEQUENTIAL, CONSEQUENTIAL OR INCIDENTAL;
- (C) ATLINKS LIABILITY IS LIMITED TO THE VALUE OF PURCHASE OF PRODUCT EXCEPT HEAVIL OR UNINTENTIONAL FAULT AND EXCEPT DAMAGE BODY

18. SAFETY

In the event of an electrical hazard, the mains adapter acts as 230V power isolating device. It should therefore, as a precaution, be installed close to the appliance and be easily accessible. To disconnect the device from the primary power source, the mains adapter must be removed from the 230V AC/50 Hz socket.

If the mains adapter fails, it must be replaced by an identical model.

We recommend that you also keep a conventional telephone – one that doesn't require a power supply – as a backup.

! Do not use your telephone to notify a gas leak when standing in the vicinity of the leak.

It is recommended that you avoid using this device during electrical storms.

Do not attempt to open the batteries, as they contain chemical substances. In the event of leakage, avoid contact with the skin, eyes, nose and mouth. In the event of contact, rinse the affected part for about twenty minutes with running water and seek urgent medical attention. Clean the product with absorbent paper or a dry cloth and contact your reseller for replacement batteries.

Hereby, ATLINKS EUROPE declares that the radio equipment type DECT is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address: www.swissvoice.net

Maximum Output Power (NTP) : 24dBm

Frequency Range : 1880-1900MHz

Swissvoice Xtra 3155

19. ENVIRONMENT

This symbol means that your inoperative electronic appliance must be collected separately and not mixed with the household waste. The European Union has implemented a specific collection and recycling system for which producers are responsible.

This appliance has been designed and manufactured with high quality materials and components that can be recycled and reused. Electrical and electronic appliances are liable to contain parts that are necessary in order for the system to work properly but which can become a health and environmental hazard if they are not handled or disposed of in the proper way. Consequently, please do not throw out your inoperative appliance with the household waste.

If you are the owner of the appliance, you must deposit it at the appropriate local collection point or leave it with the vendor when buying a new appliance.

- If you are a professional user, please follow your supplier's instructions.
- If the appliance is rented to you or left in your care, please contact your service provider.

Keen to preserve the environment, ATLINKS has equipped this appliance with a switching power supply, offering better energy efficiency. The advantages include not only very low electricity consumption, but also a more compact format than the conventional power supply units used by the previous range.

The used batteries from your telephone (if it has batteries) must be disposed of in compliance with current environmental protection regulations. Comply with your local regulations.

Return your batteries to your reseller or dispose of them at an approved recycling centre.

Help us protect the environment in which we live!

DECLARATION OF CONFORMITY (DoC)

We,
ATLINKS EUROPE
147, Avenue Paul Doumer,
92500, Rueil-Malmaison
FRANCE

Declare under our sole responsibility that the product(s):

Brand = **SWISSVOICE** Model No = **XTRA 3155, XTRA 3155 Duo, XTRA 3155 Trio, XTRA Extra** Product Description = **DECT**

Comply:

- With the essential requirements and other relevant requirements of the RED directive (2014/53/EU) based on the following standards and other normative documents:
 - EN 60950-1 (2006) + A11 (2009) + A1 (2010) + A12 (2011) + A2 (2013)
 - EN 301496 V2.2.2 (2016)
 - Maximum Output Power (NTP): 24dBm
 - Frequency Range: 1897.344MHz to 1881.792MHz (Remark : $F_c = F_0 - c \times 1.728 \text{ MHz}$, where $F_0 = 1\ 897.344 \text{ MHz}$; and $c = 0,1, \dots, 9$)
 - Draft EN 301489-01 V2.2.0 (2017) / Draft EN 301489-06 V2.2.0 (2017)
 - EN 60479 (2010) / EN 50663 (2017) / EN 62311 (2008)
- With Commission regulation (EC) N° 278/2009 of April 6, 2009 implementing Directive 2009/125/EC of the European Parliament and of the Council with regard to ecodesign requirements for no-load condition electric power consumption and average active efficiency of external power supplies
- With the RoHS Directive 2011/65/EU of June 8, 2011, on the restriction of the use of certain hazardous substances in electrical and electronic equipment

This conformity is understood as being effective if the products for which it is given is installed and used according to the instructions provided in the user's guide.
